Karijini Eco Retreat

Designed with the environment in mind - guests at the Karijini Eco Retreat embrace a 'greener' style of accommodation. The semi-permanent deluxe eco tents, cabins, campground and facilities incorporate eco-friendly practices which ensure environmentally sustainable management of the natural and cultural values of one of the most ancient landscapes on earth.

A short walk trail leads directly from the Retreat into Joffre Gorge – stand at the top and you'll find yourself overwhelmed by this powerful creation of nature. Over a period of some 2,500 million years, this country has been sculptured and shaped to the dramatic landscapes which now form the heart of the Karijini National Park – a labyrinth of waterfalls and gorges, some of which are so narrow you can reach out and touch the cool rocks on either side.

Whether you are camping or glamping – 'glamorous camping' - the Retreat offers the perfect solution for travellers seeking to blend a rugged encounter in the pristine Karijini National Park, with the soft creature comforts that are not traditionally associated with camping. An outback style licensed alfresco restaurant adds glamorous flair to a 'gorgeous' day of trekking whilst the sunset slowly merges with an endless blanket of stars that seem to reflect the timelessness of this place.
